

## Team Clean Hosts Dan Wagner

By Shelly Awaya

On Nov. 4, Team Clean Inc. provided members a great privilege by hosting ISSA Director of Facility Service Programs Dan Wagner, who spoke on the Cleaning Industry Management Standard (CIMS) and the newly created CIMS Green Building (GB) designation. For more details regarding certification, Wagner's PowerPoint presentation, as well as the 21-page CIMS, is currently available on our Web site: [hawaii-ieha.org](http://hawaii-ieha.org).

Meeting attendees were given detailed information on how to become a certification expert, as well as how to attain facility certification for the coveted "green building." Vendor booths were set up to showcase the latest environmentally friendly products. Local companies featured were ABC Corp., Crestek Cleaning Center Inc.,

JohnsonDiversey Corp., Lamers Enterprise Inc., PaperSource Hawaii Inc. and the Professional Cleaning Institute of Hawaii.

Dan Wagner

Team Clean recently became the first professional cleaning company in Hawaii to become certified with honors by ISSA, the Worldwide Cleaning Industry Association. This shows Team Clean's commitment to keeping its employees current with industry standards and its willingness to go above and beyond for the customers of our profession.

A big mahalo to Brian Benz, C.E.H., I.C.E., and Team Clean for arranging this valuable opportunity!

The next meeting is Jan. 13 – please RSVP to Maile Broniola, [mbroniola@miramarwaikiki.com](mailto:mbroniola@miramarwaikiki.com), 926-8569.
